Nijhuis Saur Industries expands clean water expertise with the acquisition of Grünbeck Waterbehandeling

Doetinchem, October 1, 2025 — Nijhuis Saur Industries (NSI), part of Saur Group, announces the acquisition of Grünbeck Waterbehandeling, a Dutch water treatment company known for its expertise in industrial process water applications, residential- and hydrogen solutions. Following this transaction, the company will operate under the new name NSI Clean Water Solutions BV. This acquisition represents a strategic step in Saur Group's MissionWater 2030 ambition to accelerate growth in the industrial water sector, broaden its portfolio of clean water technologies, and support clients with sustainable and resilient solutions worldwide.

Strengthening hydrogen and ultra-pure water expertise as a global differentiator

Grünbeck Waterbehandeling has built a strong market position across industries including healthcare, residential, food & beverage, and hydrogen. With more than 300 reference projects and over 100 ultra-pure water pilot installations developed for the hydrogen sector worldwide, Grünbeck Waterbehandeling stands out as an expert in supporting the energy transition. Its portfolio ranges from compact units to large-scale industrial systems delivering capacities from a few liters to several thousand liters per hour.

Delivering customer value with scalable water treatment solutions

"We are delighted to welcome our new colleagues of Grünbeck Waterbehandeling to the NSI team. With their strong and complementary product portfolio, Grünbeck enables NSI to address ultra-pure water applications and clean-water reuse expertise in commercial buildings, delivering greater value to our customers. This acquisition is not only about growth, but about supporting our fast-growing customer base with water-on-demand solutions, helping them restore and close the water loop, contributing to a resilient future." says Menno M. Holterman – CEO NSI.

Nick Liebrand – CEO Grünbeck Waterbehandeling adds: *"We are excited to be joining the NSI Clean Water Solutions team. Since 2009 Grünbeck Waterbehandeling helps industries to efficiently treat process water, enabling customers to focus on their core business. For our future expansion we chose to move forward with NSI. The personal relationship we have built with their Board, combined with the unique potential NSI brings to accelerate our growth, makes them the ideal partner for our next chapter."*

###

About Grünbeck Waterbehandeling

Established in 2009 in the Netherlands, Grünbeck Waterbehandeling specializes in process water treatment solutions across multiple sectors. Known for reliability, customer service, and innovation, Grünbeck combines local market expertise with a global footprint in hydrogen water purification pilots. Grünbeck's commitment to quality and sustainability has been recognized multiple times, including being awarded as the "Brand of the Century in Water treatment" by ZEIT Verlag.
